## PREFACE

The USA *Declaration of Independence* reminds us:

5 ...That to secure these rights [i.e., “unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness”], *Governments are instituted...* That whenever any Form of Government [or institutional governance] becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government [or institutional governance]...

10 ...*Governments [or institutional governance] long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed...*

## ABSTRACT

This paper provides the 2<sup>nd</sup> expansion paper for the *Destructive Institutions Framework*. The purpose of this paper is to expand the use of the *Destructive Institutions Framework* to institutional corruption/crime, i.e., institutional Malignant Societal Entities – *destructive institutions* and *criminal institutions* (with focus on the latter). The intent is to provide an expansion of the *Destructive Institutions Framework* for researchers working on institutional corrupt/criminal behaviors to provide the *Criminal Institutions Framework* with the following examples in this paper: modern human trafficking, terrorism, political corruption (e.g., bribery, extortion, cronyism, etc.). The expansion also demonstrates the commonality among all Malignant Societal Entities (individual or institutional) and the thin line separating crime from legalized destruction.

Key Recommendation: There are multiple spawning relationships among Malignant Societal Entities, e.g., *destructive institutions* can spawn other *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals*. Thus, all Malignant Societal Entities must be targeted for elimination (by the elimination of their respective contracts), i.e., *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals* must be the target of elimination in order to eliminate the vicious spawning cycle of these Malignant Societal Entities.

The 1<sup>st</sup> expansion paper of the *Destructive Institutions Framework* provided for expansion of the use of the *Destructive Institutions Framework* to personal corruption/crime, i.e., individual Malignant Societal Entities – *destructive individuals* and *criminal individuals*. This 2<sup>nd</sup> expansion paper leverages both the *destructive individuals* and *criminal individuals* Frameworks and *Destructive Institutions Framework* to focus on describing institutional corruption/criminal behaviors to describe the *Criminal Institutions Framework*.

This paper can be used as support for paper preparation for the 11<sup>th</sup> Annual Workshop on Unintended Consequences. There is a Call For Papers on Destructive Institutions Predictive Analysis for a Mini-Workshop during the 11<sup>th</sup> Annual Workshop. See Appendix B for the Call For Papers. The *Destructive Institutions Framework* is described in the following paper and is prerequisite reading:

The first four applications of the *Destructive Institutions Framework* are included in the framework paper. These are: (1) chattel slavery (USA historical focus); (2) climate crisis (USA and worldwide focus); (3) mass shootings crisis (USA focus); (4) opioid crisis (USA focus with potential for worldwide crisis). The first four applications were *destructive institutions for profit* applications of the *destructive institution contract*. Application No. 5 covers the worldwide ingress refugee crisis; it is the first *destructive government* application, specifically a democratic *destructive government* application. Application No. 6 covers the USA Federal Government Perverse Response to the COVID-19 Pandemic Crisis; this is the second democratic *destructive government* application. Application No. 7 covers the USA Perverse Capitalism, related to Application No. 6; this is the third democratic *destructive government* application. See Appendix web links for the *destructive institutions* body of work.

The structure of this paper is as follows:

## Paper Revision History

Working Paper Issue 1: 10 Oct 2020

## INTRODUCTION

A *destructive institution* is a legal institution that uses Corruption (legalized or illegal) and Brainhacking (cognitive plays like disinformation, propaganda and conspiracy theories) as a core part of its sustainability and growth strategy and tactics; such that the security of unalienable Rights such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or destroyed; where, the institution's core gains including financial gains are correlated with powerful and large scale destruction\* and where there is an out-of-control destruction situation with malfunctioning or no control limit to the destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of destruction (i.e., no/poor balance). There are two basic forms of *destructive institutions*: *destructive institutions for profit* (e.g., Fossil Fuels Institution driving the Climate Crisis) and *destructive governments* (e.g., *democratic destructive governments* driving the Refugee Crisis or Totalitarian States). The *Destructive Institutions Framework* paper reference above has more details and formal definitions.

---

\* “Destruction” is characterized as irreparable harms or damages, or harms or damages that are very difficult to remediate.

This paper provides the 2<sup>nd</sup> expansion paper for the *Destructive Institutions Framework*. The purpose of this paper is to expand the use of the *Destructive Institutions Framework* to institutional corruption/crime, i.e., institutional Malignant Societal Entities – *destructive institutions* and *criminal institutions* (with focus on the latter). The intent is to provide an expansion of the *Destructive*

5 *Institutions Framework* for researchers working on institutional corrupt/criminal behaviors to provide the *Criminal Institutions Framework* with the following examples in this paper: modern human trafficking, terrorism, political corruption (e.g., bribery, extortion, cronyism, etc.). The expansion also demonstrates the commonality among all Malignant Societal Entities (individual or institutional) and the thin line separating crime from legalized destruction.

10

The 1<sup>st</sup> expansion paper of the *Destructive Institutions Framework* provided for expansion of the use of the *Destructive Institutions Framework* to personal corruption/crime, i.e., individual Malignant Societal Entities – *destructive individuals* and *criminal individuals*. This 2<sup>nd</sup> expansion paper leverages both the *destructive individuals* and *criminal individuals* Frameworks and *Destructive Institutions Framework* 15 to focus on describing institutional corruption/criminal behaviors to describe the *Criminal Institutions Framework*.

## MALIGNANT SOCIETAL ENTITY SCHEMA

20

The table below shows the Malignant Societal Entity Schema – describing the superset that includes *destructive institutions*. The schema and analysis demonstrates the commonality among all Malignant Societal Entities (individual or institutional) and the thin line separating crime from legalized destruction. The scope of this paper is on illegal institutional Malignant Societal Entities (i.e., 25 *destructive institutions* and *criminal institutions*). *Destructive institutions* are covered in the *Destructive Institutions Framework* paper. *Destructive individuals* and *criminal individuals* are covered in the *Individual Malignant Societal Entities: Destructive Individuals and Criminal Individuals* paper. Thus, this paper focuses on *criminal institutions*.

30

| <i>Legality</i>    | <i>Legal</i>   | <i>Illegal</i>   |
|--------------------|--|--|
| <i>Scope</i>       |  |  |
| <i>Institution</i> | <b>Destructive Institution</b><br>(Legal, per se, in the host Nation or State)                             | <b>Criminal Institution</b><br>(aka Criminal Organization, Organized Crime ) |
| <i>Individual</i>  | <b>Destructive Individual</b><br>(Not involved in Crime per se, e.g., Leader of a Destructive Institution) | <b>Criminal Individual</b><br>(aka, Criminal)                                |

Note: This paper is not intending to analyze the psychology of individuals. The focus is functional systems analysis from an institutional perspective. As part of this work, individuals were analyzed from a “black-box” perspective in seeking the functional equivalent of the individual. The existing *complex 35 of amoral power* model in the *Destructive Institution Framework* is used as the basis for this black-box functional equivalent of a *criminal individual* (working independently or part of a *criminal institution*).

## DESTRUCTIVE INSTITUTIONS AND CRIMINAL INSTITUTIONS FRAMEWORKS

The *Destructive Institutions Framework* is fully covered in the *Destructive Institutions Framework* paper and only references will be used here to help describe the *Criminal Institutions Framework*. The

5 *Criminal Individuals Frameworks* will also be used to support the *Criminal Institutions Framework*.

10 *Destructive institutions* being legal institutions in society have the advantage of working in the open without fear of running afoul of laws. *Criminal institutions* do not have that luxury given that they are illegal institutions by definition where their primary behavior and actions are generally illegal. With a *destructive institution* it has a *destructive institution core* (where primary gains including profits are collected) that works in the foreground in like the Fossil Fuel Institution has with the fossil fuel industry freely operating in the open, and has a *complex of amoral power* that works in the background. A *criminal institution* has no need for such a foreground core function.

15 The definition of *criminal institution* is below. Note that the “institution of crime” is a broader concept. The institution of crime can take on a wide variety of manifestation similar to the general use of the term “institution” – i.e., where the term institution it can broadly be applied to marriage, family, religion, education, politics, economy, etc. With institution of crime, it is not limited to organized crime – of which each instance of organized crime has their own institution (or sub-institution) – which is the 20 focus of *criminal institutions* and this paper. The scope of the institution of crime is like a hierarchy or taxonomy of crime that covers organized crime, terrorism, human trafficking, drug trafficking, robbery, rape, arson, confidence schemes, murder, kidnapping, extortion, assassination, serial murderers, etc. A *criminal individual* generally focuses on a small subset of these crime types. The same with a *criminal institution* or organized crime – they would have their specific institutional norms and rules and focus 25 on a subset of crime types.

30 Using the above as a foundation, the *Criminal Institutions Framework* will focus on the view of a *criminal institution* being an integration of *criminal individuals* into an organization (see **Figures 1, 2, 3**).

35 For easy reference the following definitions are copied from the *criminal individuals* Framework and are applicable to the *Criminal Institutions Framework*:

35 *criminal individual*: An individual that has a *personal nexus of criminal power* as virtual functions that can work in the background or in the foreground with one or more bonded *criminal individual contracts*.

40 *personal nexus of criminal power*: A virtual complex of functions expressed by an individual, characterized by criminal mutual self-preservation and growth relationships between and among those virtual functions: (1) the power of personal money/rewards (desire, accumulation), (2) the power of personal governance policy and physical expression of these policies and (3) the power of personal communications/influence that results in criminal personal money/reward flows, personal governance policy and physical actions, and personal communications/influence transmissions. The *personal nexus of criminal power* is the primary source of *criminal individual brainhacking*.

45 *criminal individual brainhacking*: The individual amoral, corrupt or criminal

communications/influence play to cognitive biases, defenses, and self-preservation that results in denial and rationalizations of crimes and destruction where the cascading result is the willful acceptance of one or more Malignant Societal Entities (i.e., *destructive institutions*, *destructive individuals*, *criminal individuals* or *criminal institutions*) with the goal of solidifying supporters such that they have no or low empathy to the crimes and destruction and human impacts – and therefore disabling the checks and balances to the crimes and destruction.

## Criminal Institution Definition

The definition of *criminal institution* is as follows:

*criminal institution*: An institution that has an organizational structure of *criminal individuals* where, normatively, the individuals express their respective *personal nexuses of criminal power* in an organized manner that can work in the background or in the foreground with one or more bonded *criminal institution contracts*.

The organizational structure of a *criminal institution* can take on many forms, e.g., tightly organized hierarchy, loosely organized lone-wolfs, etc.

*criminal institution brainhacking*: The institutional amoral, corrupt or criminal communications/influence play to cognitive biases, defenses, and self-preservation that results in denial and rationalizations of crimes and destruction where the cascading result is the willful acceptance of one or more Malignant Societal Entities (i.e., *destructive institutions*, *destructive individuals*, *criminal individuals* or *criminal institutions*) with the goal of solidifying supporters such that they have no or low empathy to the crimes and destruction and human impacts – and therefore disabling the checks and balances to the crimes and destruction.

## Criminal Institution Contract Definition

The *criminal institution contract* definition is as follows:

*criminal institution contract (Short Definition)*: A forced relationship between a *criminal institution* and individuals, groups of individuals, other institutions or general population – set by institutional policy; where, the institution's core gains including financial gains are correlated with destruction and crimes, where there is an out-of-control destruction/criminal situation with malfunctioning or no control limit to the destruction/crimes (i.e., no/poor checks) and malfunctioning or no control of the growth of destruction/crimes (i.e., no/poor balance).

*criminal institution contract (Long Definition with Clauses)*: A forced relationship between a *criminal institution* and individuals, groups of individuals, other institutions or general population – set by institutional policy; where,

- the *criminal institution*, via this relationship, is characterized as performing, licensing, approving or facilitating: funding, acts and/or communications that drives the institution's core gains including financial gains that are correlated with destruction and crimes; where,
- these core gains are the rewards and reinforcement of rewards (i.e., significant control response

to positive feedback) that sustains and grows further destruction/crimes; where,

- there is an out-of-control destruction/criminal situation (i.e., significant lack of control response to negative feedback) with malfunctioning or no control limit to the destruction/crimes (i.e., no/poor checks) and malfunctioning or no control of the growth of destruction/crimes (i.e., no/poor balance); where,
- the security of unalienable Rights such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or destroyed; where,
- the relationship is unrepairable to make it right in an ethical society.

Note that once law enforcement apprehends the *criminal individuals* in the *criminal institution* and/or severely disrupts the *criminal institution*, that can put a terminal check or control limit on the *criminal institution* – but this is after the crimes are committed. While crimes are being committed, the *criminal individuals* and *criminal institution* as a whole mitigates the impacts of law enforcement – and thus is operating without an effective control limit.

20

## CRIMINAL INSTITUTION CONTRACT EXAMPLES

Three *criminal institution contract* examples are provided in this section:

- Human Trafficking Organization (the *criminal institution* expansion of the *criminal individual contract* of Human Trafficker)
- Terrorism Organization (the *criminal institution* expansion of the *criminal individual contract* of Terrorist)
- Organized Official Corruption (the *criminal institution* expansion of the *criminal individual contract* of Corrupt Official).

30

The *criminal institution contracts* in this section indicate numerous violations of the moral codes specified in the *Ten Commandments*. For more information on this, see Appendix C: Applying Violations of Moral Codes (the *Ten Commandments*) to the Destructive/Criminal Individual Frameworks.

## RECOMMENDATIONS

The foundational recommendations to eliminate a *destructive institution* (copied from the *Destructive Institution Framework*) are:

- 5 ● For all *destructive institutions*: To eliminate a *destructive institution* (i.e., terminate it or transform it to a non- *destructive institution*) all *destructive institution contracts* in it must be eliminated; the prerequisite to eliminate a *destructive institution contract* is to eliminate or severely disrupt the supporting *complex of amoral power* by legal means.
- 10 ● Specifically for all *destructive institutions for profit*: To eliminate or severely disrupt the supporting *complex of amoral power*, their legalized corruption and supporting *destructive institution brainhacking* must be eliminated, severely disrupted or otherwise neutralized by legal means.

15 The analogy is true to eliminate a *criminal institution*, i.e.:

- 20 ● For a *criminal institution*: Eliminate the *criminal institution contracts* and severely disrupt or otherwise neutralize the *criminal individuals (personal nexuses of criminal power)*. Given the criminal behaviors, this is a law enforcement matter.

25 There are multiple spawning relationships among Malignant Societal Entities, e.g., *destructive institutions* can spawn other *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals*. Thus:

- 30 ● All Malignant Societal Entities must be targeted for elimination (by the elimination of their respective contracts), i.e., *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals* must be the target of elimination in order to eliminate the vicious spawning cycle of these Malignant Societal Entities.

### Mini-Workshop: Destructive Institutions and Anticipatory Knowledge

Part of 11<sup>th</sup> Annual Unintended Consequences Workshop

5 10-11 May 2021 – University of Warsaw – Warsaw Poland

(Face to Face Workshop Planned – Could be a Virtual Workshop with COVID Travel Restrictions)

\*\*\* **CALL FOR PAPERS** \*\*\*

10 10 GENERAL DESCRIPTION OF DESTRUCTIVE INSTITUTIONS FOR PURPOSE OF WORKSHOP

CALL FOR PAPERS: A Destructive Institution is a legal institution that uses Corruption (legalized or illegal) and Brainhacking (cognitive plays like disinformation, propaganda and conspiracy theories) as a core part of its sustainability and growth strategy and tactics; such that the security of unalienable Rights such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or

15 destroyed; where, the institution's core gains including financial gains are correlated with powerful and large scale destruction\* and where there is an out-of-control destruction situation with malfunctioning or no control limit to the destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of destruction (i.e., no/poor balance). There are two basic forms of Destructive Institutions: Destructive Institutions for Profit (e.g., Fossil Fuels Institution driving the Climate Crisis) and

20 Destructive Governments (e.g., Democratic Destructive Governments driving the Refugee Crisis or Totalitarian States).

For more detail and prior work on Destructive Institution, see the following:

25 The video presentation of the Destructive Institutions Body of Work at the 10th Annual Unintended Consequences Workshop can be found here:

35 FOCUS OF MINI-WORKSHOP:

The focus of the workshop is on predictive analysis regarding future states of Destructive Institutions. This can be based on existing Destructive Institutions applications analysis (e.g., Climate Crisis, Refugee Crisis, etc.) that are in the Destructive Institutions Body of Work or new applications analysis of Destructive Institutions (e.g., Subjugation of Woman, Water Crisis, Rainforest Destruction, Surveillance State, Authoritarian State example, Historical Example that can be use for Future State predictive analysis, etc.).

Here are examples of questions that could be asked and answered as part of the research and analysis:

---

\* “Destruction” is characterized as irreparable harms or damages, or harms or damages that are very difficult to remediate.

-- What future states are possible *without* a major disruption to Legalized Corruption and Brainhacking?

5 -- What future states are possible *with* a major disruption of Legalized Corruption and Brainhacking?

-- What are the limiting cases of future states under various scenarios?

10 -- How could Regime change impact future states?

15 -- How could disruptive innovations (e.g., technology) impact future states? How might the Destructive Institution (incumbents) respond to the innovation threats?

-- What are extreme scenarios that may be forced with the strain of profit and/or power loss and what are the resulting future states?

#### CALL FOR PAPERS – *NOT* EXTENSIVELY USING EXISTING DESTRUCTIVE INSTITUTIONS

BODY OF WORK: The existing Destructive Institutions Body of Work need *not* be extensively used as part of the research and analysis. Papers are welcome in taking the Destructive Institutions concept in 20 new directions – under the Anticipatory Knowledge framework.

#### CALL FOR PAPERS – EXTENSIVELY USING EXISTING DESTRUCTIVE INSTITUTIONS

BODY OF WORK: The existing Destructive Institutions Body of Work can be extensively used as part 25 of the research and analysis. The systems-based Destructive Institutions Framework is positioned for

analysis regarding the future states of a Destructive Institution. The Destructive Institutions Framework can also serve to identify potential emerging Destructive Institutions. This can be accomplished in a structured way by using the Destructive Institutions Contract to understand the baseline state of a Destructive Institution and future states based on perturbations to the Destructive Institutions Contract.

**Appendix C: Applying Violations of Moral Codes to the  
Destructive/Criminal Individual Frameworks  
(Copied from the Individual Malignant Societal Entities Paper)**

5 In this example, the *Ten Commandments* are used as the moral codes to apply against the *destructive/criminal individuals* Framework. Specifically *Ten Commandments* moral code violations are mapped and interpreted from a *personal nexus of amoral/criminal power* functional systems perspective; i.e., using the virtual functions (in amoral/criminal ways): (1) the power of personal money/rewards, (2) the power of personal governance policy and physical expression of these policies  
10 and (3) the power of personal communications/influence.

God is understood to be Love, promote Love and be the Creator of the Universe. From a Creator perspective, we understand that humans and all life on Earth are made of the basic elements of Earth and that life on Earth functions based on the understanding of scientific knowledge, e.g., chemistry, 15 physics and biology. We understand Earth to be made of the basic elements of our solar system, Milky Way Galaxy and the Universe – and they all function based on the understanding of scientific knowledge. Thus humans and life on Earth have a direct connection with the Universe – understood in a scientific way and a religious way. Scientific knowledge is consistent with the understanding of God. There are false interpretations of God to deny and denigrate Science – this is a form of Brainhacking (cognitive 20 plays, e.g., propaganda, disinformation, conspiracy theories, etc.) to gain mass political support for *destructive institutions* (e.g., Fossil Fuel Institution driving the Climate Crisis for profit). This is similar to the Nazi Regime under Hitler using false science and perverse interpretations of religion to rationalize Crimes Against Humanity – e.g., concentration camps, torture and mass killings of civilians. Thus, Brainhacking is a key method of support for Systematic Evil and is a basic violation of moral 25 codes and is fundamentally anti-God (e.g., driving no/low empathy and disregard for The Golden Rule.) All Malignant Societal Entities (i.e., *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals*) use Brainhacking as a key part of the Systematic Evil that they inflict on society.

30 The Golden Rule is the cornerstone of all religions – God's promotion of Love. Adherence to The Golden Rule promotes integrity of the social fabric. The goals of *Ten Commandments* is to seek compliance with the moral codes that it specifies where compliance promotes adherence to The Golden Rule and promotes integrity of the social fabric. Note, that the use of the *Ten Commandments* is not to promote any specific religion. All Abrahamic Religions (e.g., Judaism, Christianity, Islam) and other 35 religions express these or similar moral codes in their respective sacred writings.

In the *destructive/criminal individuals contract* examples in this paper, there are numerous violations of the moral codes specified in the *Ten Commandments*.

40 The *Ten Commandments* are as follows copied from <https://www.bibleinfo.com/en/topics/ten-commandments-list>:

1. *You shall have no other gods before Me.*
2. *You shall make no idols.*
3. *You shall not take the name of the Lord your God in vain.*
- 45 4. *Keep the Sabbath day holy.*
5. *Honor your father and your mother.*
6. *You shall not murder.*

7. *You shall not commit adultery.*
8. *You shall not steal.*
9. *You shall not bear false witness against your neighbor.*
10. *You shall not covet.*
